Every woman desires a pair of long luscious lashes but, unfortunately, not everyone is blessed in this department. Stress and UV exposure are just two of the many factors that can damage your lashes. If yours are getting thinner and shorter, there's a silver lining to your lash cloud. Renokin Lash Lash provides nutrition to the hair follicle, resulting in the hair root becoming thicker and healthier and, ultimately, in noticeable eyelash growth within eight weeks. Apply it like eyeliner to the roots of your lashes at night time. Renokin Lash Lash costs R622.84 and is available from Skin Renewal, Bedfordview (Tel: 011 450 0125).
